

OKUMA SEMINAR

INVITATION TO

Okuma's Open House SMART FACTORY

We have pleasure in inviting you to our **Open House - SMART FACTORY**

Industry 4.0 or the fourth industrial revolution is the current trend of automation and data exchange in manufacturing technologies.

Industry 4.0 creates what is called a **smart factory**.

The value of Okuma's smart factory is not only the high degree of automation and unmanned operation. We add value by visualising the factory and improving efficiency, reducing costs and shorten deliveries by analysing **big data** from the factory.

When
Where

25 - 27 October 2016, 09:00 - 16:30
Okuma Europe GmbH
Europark Fichtenhain A20 | 47807 Krefeld

Learn More

OPEN POSSIBILITIES

Presentations

We will establish a smart factory in our showroom to demonstrate the possibilities of connectivity, visualisation and flexible production. Each machine will be network connected and the data monitored on a central screen. We will run guided tours through the various stations on an hourly basis.

Machines on display

Vertical Machining Centre	MU-4000V
Vertical Machining Centre	MU-8000V
Horizontal Machining Centre	MA-600H
Vertical Machining Centre	MB-46VAE
Multitasking Machine	MULTUS B750
Multitasking Machine	MULTUS U4000
Multitasking Machine	VTM-1200YB
Horizontal Lathe	LB3000 EX
Grinder	GA15W

Learn more about how to

- use connectivity to optimise your production schedule
- gather and analyse machine data to prevent trouble and improve machining
- utilise intelligent technology and information
- manage a flexible production plan

This workshop offers high-level presentations, live machining demonstrations and time for individual discussions with the experts.
